CAN GRIPPING

**THE GRIPPING ADAPTED TO
ALL SHAPES OF CAN**

CAN GRIPPING

THE GRIPPING ADAPTED TO ALL SHAPES OF CAN

FUNCTION

The can clamping, thanks to its platform and its offcenter studs, allows to keep in position cans of all shapes and sizes allowing the cap to be centered on the sensor.

It is removable and attaches to the bars of the 4-stud clamping bars allowing the passage from one to the other easily.
